

## **The Joint Commission Renews Accreditation for High Focus Centers**

Following their intensive survey, on August 26, 2016 The Joint Commission announced that High Focus Centers has received a renewal of its full three-year accreditation.

An accreditation by the Joint Commission represents a behavioral healthcare provider's commitment to maintaining a high standard of care within its facilities and ensuring that treatment and services are provided in a safe and professional manner. This accreditation assures clients, families and the public that High Focus meets or exceeds nationally-recognized criteria for quality and delivery of behavioral health services.

In awarding accreditation, the Joint Commission examines a multitude of standards, including but not limited to Environment of Care, Human Resource Management, Care and Treatment Services, Medication Management and Quality Assurance.
