

OUTPATIENT DETOX and Medication Assisted treatment (M.A.T.) Services at High Focus Centers

High Focus Centers remains committed to providing innovations in treatment that give hope to those feeling hopeless. Our expanded continuum of integrative and evidence-based programs along with MAT services provides even the most challenging patients a clear path towards long term recovery.

Continuum of Care for Substance Use Disorders at High Focus Centers

Medically-Monitored Opioid Detox

Individuals who are experiencing acute symptoms of opioid withdrawal sometimes face barriers which can get in the way of a successful detox in an inpatient setting. Patients in our Outpatient Detox program are medically monitored and receive clinical treatment services during the day, but are able to return home to their families in the evening.

Our holistic treatment regimen includes:

- Up to 10 Hours per day – M-F, 5 hours on weekends
- Holistic Approach emphasizes emotional healing and physical comfort
- Licensed clinical staff to provide therapeutic interventions
- Expert medical staff includes board-certified ASAM physician, psychiatrists, and experienced nursing staff
- Weekly family sessions
- Off hours phone access to nursing staff
- Wi-fi and laptop/mobile device access as deemed appropriate
- Lunch provided
