

Summary of Services Evans, Georgia Outpatient Program

High Focus Centers in Evans, GA serves adults who are suffering with common behavioral mood disorders such as depression, anxiety, and bipolar in the CSRA and surrounding counties.

Our program is person-centered and individualized to address each client's unique needs, goals and preferences.

We encourage family involvement while providing active, intensive therapeutic services in a coordinated and structured environment.

Partial Hospitalization Program (PHP)

An alternative to highly structured inpatient hospitalization. Our Partial Hospitalization Program (PHP) is designed to provide treatment, therapy and support for adults diagnosed with mental health and/or co-occurring disorders who have access to an external support system and can benefit from a more intensive day program.

Intensive Outpatient Program (IOP)

Our Intensive Outpatient Program provides a more flexible option for those with moderate symptoms, or those who have completed a higher level of care. Individuals learn to implement coping strategies and process their experience in a therapeutic and supportive environment while living at home, working, and/or attending school.

Medication Management

A full-time clinical and medical team work collaboratively to develop and individualize a treatment plan with the client based on their client's unique goals. Our medical team meets with each client individually to discuss the use of medications as an accompaniment to treatment.

Contact us to learn more about our outpatient treatment programs at this location.
