

Summary of Services Marietta, Georgia Outpatient Program

High Focus Centers in Marietta, GA provides compassionate, integrated **substance use treatment for adults** in a convenient outpatient setting. Our expert clinical team provides **individualized care for substance use and co-occurring mental health disorders**, starting with a thorough evaluation and diagnosis through comprehensive treatment and continuing care.

We offer groups that accommodate a wide variety of clients and relevant topics of interest, including but not limited to, LGBTQ+ support, faith in recovery, healing from trauma, and building strengths - all designed to develop confidence and a sense of community at every stage of recovery.

Partial Hospitalization Program (PHP)

Offered daily, our PHP is a structured, full-day substance use treatment program for adults that serves as a bridge between inpatient and outpatient programs. While many clients enter the program immediately following detox, others utilize the PHP as a step down from residential treatment.

Intensive Outpatient Program (IOP)

Appropriate as a starting point for care, our day and evening Intensive Outpatient Program is also ideal for adults who have successfully completed a PHP and can benefit from continued support to develop the skills necessary to maintain a lifetime of sobriety.

Outpatient, Aftercare, & Alumni Programs

Our Outpatient Program, ongoing aftercare, and alumni program allow individuals to remain connected to their recovery foundation and continue to maintain vital relationships that support long-term recovery.

Medication Assisted Treatment (MAT)

A full-time medical team discusses the use of medications as an accompaniment to treatment and clinicians develop and individualized, detailed treatment plan with the client based on their client's unique recovery needs and goals.
